

AmeriStand 915TS RR

FALL DORMANCY: 9.1

CUTTINGS/SEASON: 8+

PERFORMANCE PROFILE

Traffic Tested®: Excellent

Yield Potential: Excellent

Stand Persistence: Excellent

Recovery After Cutting: V. Fast

Salt Tolerance*: Germination

RESISTANCE RATINGS

Phytophthora Root Rot: HR

Anthracnose: R

Verticillium Wilt: MR

Bacterial Wilt: R

Fusarium Wilt: R

Pea Aphid: HR

Blue Alfalfa Aphid: HR

Spotted Alfalfa Aphid: HR

Stem Nematode: R

Root Knot Nematode: HR

HR = >51% Resistance

R = 31-50% Resistance

MR = 15-30% Resistance

LR = 6-14% Resistance

*In tests established by the NAAIC Review Board, this variety demonstrated improved salt tolerance of germinating seeds as compared to the industry salt tolerant checks. References available upon request.

Salt Tolerant, 9 Dormancy Traffic Tested® Roundup Ready® Tolerant Alfalfa

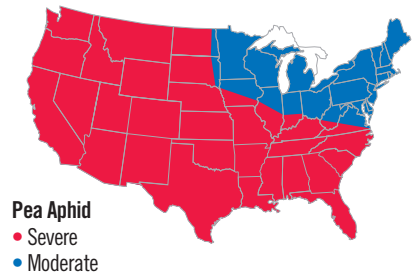

- Improved salt tolerance of germinating seeds*
- High resistance to blue alfalfa aphid, spotted alfalfa aphid, pea aphid, root knot nematode and *Phytophthora* root rot
- Resistance to stem nematode, *Anthracnose*, bacterial wilt and *Fusarium* wilt

APHIDS AND SALT ARE YIELD ROBBERS

Aphids cause plants to wilt and turn yellow, lowering productivity. The tiny spotted alfalfa aphid is the most devastating aphid pest of seedling alfalfa. The large green pea aphid builds up populations that can cover the stems and terminal buds to stunt growth.

Soil salinity currently limits crop production potential in parts of the western United States, especially alfalfa under irrigation. Salinity reduces yield and accelerates stand decline. To produce high quality hay in saline environments, planting a variety proven to tolerate salt is a key best management practice. Also note that proper soil amendments, proper irrigation, etc. are also needed to maximize yield.

VARIETY PERFORMANCE

YIELD TRIAL LOCATION	TRIAL YEARS REPORTED	MULTI-YEAR TOTAL TONS PER ACRE	MULTI-YEAR % OF MEAN
Dos Palos, CA	3	35.84	111%
Shafter, CA	3	29.47	105%
Yuma, AZ	2	20.39	102%
Davis, CA	2	20.80	117%

The above table compares variety performance in locations with positive results relative to trial means.

Due to the unique cropping practices do not plant Roundup Ready® Alfalfa in Imperial County, California, pending import approvals and until Forage Genetics International, LLC (FGI) grants express permission for such planting.

Forage Genetics International, LLC ("FGI") is a member of Excellence Through Stewardship® (ETS). FGI products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with FGI's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. As of June 2017, Roundup Ready® Alfalfa has pending import approvals. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Growers should refer to <http://www.biotechstatus.com/> for any updated information on import country approvals. Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® crops contain genes that confer tolerance to glyphosate. Glyphosate herbicides will kill crops that are not tolerant to glyphosate.

America's Alfalfa®, Traffic Tested® and HarvXtra® are registered trademarks of Forage Genetics International, LLC. HarvXtra® Alfalfa with Roundup Ready® Technology is enabled with Technology from The Samuel Roberts Noble Foundation, Inc. © 2017 Forage Genetics International, LLC

Due to factors outside of Forage Genetics International's (FGI's) control, such as weather, crop production patterns, and other factors, results to be obtained, including but not limited to yields or financial performance, cannot be predicted or guaranteed by FGI. Results are based upon FGI controlled tests and field trials and public trials. Actual results may vary.
